The Florence Academy of Art  
Training for the Professional Realist Artist

## Learn Realistic Drawing, Painting and Sculpture in Florence, Italy

The Florence Academy of Art's atelier method of instruction is based on a concept of systematic progression. As each requisite skill is acquired, a new and more difficult task is assigned. The rigorous curriculum challenges the student to confront his own limitations and work towards perfection.

The Florence Academy of Art's studios are located in the center of Florence. Students work under north facing light, sharing the figure drawing space, and using separate areas for drawing, still life, portraiture and sculpture. The unique studio environment, surrounded by the history and treasures of Florence, provides an inspiring setting for the development of true artistic skills.

For more information:

The Florence Academy of Art  
Via delle Casine, 21/r  
50122 Florence, Italy
